

Life Insurance 1 – practicals (WT 2016/2017)

Compute *commutation functions* for men/women/unisex¹ using Czech life tables for 2015.
Use $TIR = i = 1.3\%$.

Please send a file with the results in the format *surname_name_hw1.pdf* to my e-mail.

DEADLINE: 21 November, 2016

¹ Use $l_{uni} = 0.5 \cdot l_x + 0.5 \cdot l_y$
